

A REAL EDUCATION IN LINGUAL ORTHODONTICS

LINGUAL ORTHODONTIC INTENSIVE COURSE IN 4 SESSIONS

with Dr. Didier Fillion

THE DIGITAL LINGUAL STRAIGHT WIRE SYSTEM (DLS)

The Digital Lingual Straight wire system represents a new system of lingual orthodontics including digital high technology and clinical systems based on 25 years of exclusive lingual orthodontic practice. This one-year program consists of 4 sessions including lectures (30 hours), case study (6 hours), lab demo (3 hours), clinical assistance (20 hours) and hands-on training (digital set-up checking, bracket rebonding, and archwire setting and ligating on mannequins). Theoretical and hands-on training sessions are held in Paris. Clinical session is held at Dr. Fillion office of Paris or London.

2012 One-year Program Schedule

January 28-29	1 st session:	Essential basic course / Hands-on
June 16-17	2 nd session:	Advanced extraction case mechanics
