2D® Lingual-Brackets

Lingual in the commercial world

With economic pressures now being applied in all walks of life, the need to be commercially astute in your practice is becoming more and more important.

Treating patients with the 2D Lingual bracket system offers the practice a serious lingual alternative and a financially rewarding solution.

The aim of this meeting is to give a theoretical overview and personal commercial experience on the 2D Lingual system. This meeting will explain the numerous advantages, such as time saving, less patient appointments and reduced laboratory costs.

The second part of this meeting will be an open forum discussion in which delegates are invited to share experiences. Case photos are encouraged and should be sent in advance to Forestadent UK for preparation.

Course schedule

- 5:30 pm – Cava and tapas reception
- 6 pm – Björn Ludwig: Choose the right cases for 2D Lingual brackets.
- 6:30 pm – Dr. Alexander Gebhardt: Why 2D Brackets make commercial sense.
- 7 pm - Open forum discussion
- 7:45 pm – Finish
